

## Greetings, our 2026 Technical Training Schedule is Now Available!

### Technical Training: Theory, Diagnostic, and Repair

Designed for **biomed equipment technicians, service technicians and/or facilities personnel** at government organizations; this class covers technical theory, diagnostics, and hands-on troubleshooting. Topics include dental pneumatics, hydraulics, electronics, maintenance, diagnostics, adjustment, and waterline maintenance.

| Training Dates:    | Application Open               | Application Close               |                                     |
|--------------------|--------------------------------|---------------------------------|-------------------------------------|
| April 14-16, 2026  | Monday, January 12th           | Sunday, February 15th           | <a href="#">Click here to apply</a> |
| May 5-7, 2026      | Monday, January 12th           | Sunday, February 15th           | <a href="#">Click here to apply</a> |
| August 18-20, 2026 | Monday, April 13 <sup>th</sup> | Sunday, May 17 <sup>th</sup>    | <a href="#">Click here to apply</a> |
| November 3-5, 2026 | Monday, July 20 <sup>th</sup>  | Sunday, August 23 <sup>rd</sup> | <a href="#">Click here to apply</a> |

### Where does the training take place?

The training will be held at A-dec's headquarters in Newberg, Oregon.

### How much does it cost to attend?

A-dec offers Technical Training to its dealer partners, university customers, and government customers equally. **There are no tuition fees for A-dec Technical Training classes**, and lodging, meals, and ground transportation are always provided at no additional cost to the participants. Attendees will be responsible for getting themselves to the event (either by flying to PDX International Airport or driving directly to Newberg). A-dec will provide shuttles to and from the airport.

A-dec holds a Federal Supply Schedule VA Contract (V797D-70087). Per 552.212-70(a), of the VA's solicitation document, **concessions can be offered that will benefit our Federal Government customers**. Technical Training is part of these concessions.

### When should I plan to arrive?

Please plan to arrive on Monday and depart on Friday. The class itself runs from 8 AM-5 PM, Tuesday-Thursday.

### How do I apply?

**Please note: submitting an application does not guarantee you a spot.** Each year we receive more applications than we have the space for. While we do our best to accommodate each organization's needs, we cannot accept every applicant each year. Evaluations in the selection process may include the applicant's tenure at their institution, whether new equipment was recently purchased, any current contractual commitments, and the applicant's past attendance.

Application windows are separated by season. See below for deadlines and application links.

We thank you for your interest in A-dec's Technical Training classes! If you have any questions or would like to learn more about our offerings, please contact your [A-dec Territory Manager](#).

Sincerely,

[Matney Jamieson](#)

A-dec Training Coordinator
